

Lessons That Can Be Learned

The result of examinations recently received show unerringly the plain fact that success and honor come only to the boy or girl who works patiently, persistently and intelligently to achieve the desired end.

With the commencement of a new term but short time off, it is opportune to point out that only painstaking attention and diligence to studies will ensure adequate results next year. To some, next year may seem a long way off, but the inclination may be strong to take things easy until examination time approaches. It should be considered that no magic wand waving at the last moments of the term can instill the requisite knowledge in the mind. A dilatory, procrastinating policy will produce results as definitely and as deservingly as an easy-going attitude.

FROM THE FILES OF THE CALL TWENTY YEARS AGO

E. Parkin of Cumberland, B. C. has moved to Gleichen and will reside here in future.

"The Strathmore soft ball girls played last Tuesday and easily defeated the local girls."

Mr. and Mrs. A. Ard, who farm north of Calgary, saw Sunday morning at the home of Mr. and Mrs. F. Daw. Some twelve years ago Mr. Ard was book keeper for the Pacific Cold Storage Company here.

Julius Little has purchased a new car through E. L. Birdson the local Hudson's Bay man. Julius' many friends particularly the ladies think the car is beauty.

Mrs. K. Lyons is at present visiting at the home of her brother, G. H. Goodenham.

Mrs. J. Doddridge and two children of Calgary, are spending a week at the home of her sister, Mrs. E. E. Lester.

Mrs. Redmond of Calgary, who has been visiting Mrs. A. Batts for the past couple of weeks has returned to her home.

Cliff Flury is busy these days constructing a concrete basement on property he recently purchased. When this work is finished he will move the residence he now occupies on to the foundation.

Frank Plante is rapidly completing the finishing touches to the house he recently purchased in town.

Miss Kate Lewis is at present visiting friends in Vancouver.

Joe Greer has been faithful in his attention to the new lawn around the United Church and will be seen to be an unsightly pile of red clay is now a patch of lovely grass with the year and of the lot producing first class potatoes.

Mrs. J. A. Menard and son Leslie accompanied by Masters Denny Wende, Campbell and Elliot, arrived the past week visiting Mr. and Mrs. A. Saue of Hammer Hill.

The annual fishing voyages from Britain to Newfoundland were so valuable as training for future British naval recruits that, to discourage any thought these private ownership of such in Newfoundland was prohibited, the British government.

The adventures of the little girl called Maggie Muggins, who numbers birds, animals and insects among her best friends, are dramatised in a weekly series on CBC. The popular

THEN THEY MILKED THE COW

So much has been said and written of watered stocks and international exchange that in the mind of it all our head whirled and we end up by wondering what it is all about. A brief history of finance as practised by some and makes it so clear that we pass it on to readers.

Ten men who were financiers chipped in ten dollars each and bought a cow that gave ten gallons of milk every day. The milk was divided at night, each man receiving one gallon as his share.

Neighbors far and near soon heard of the wonderful cow and said to one another: "Think of getting a whole gallon of milk every day! What a wonderful return on a ten dollar investment. With I had a share in her." This soon reached the ears of the ten men who owned the cow, and they held a meeting at which one of them said: "Let us give them what they want. Our shares in the cow cost us ten dollars each, and we can sell other shares at the same price."

So they went to a printer and secured one thousand sheets of paper bearing the legend, "One Share in the Cow." Then they sold 500 of these shares at ten dollars each and divided the other 500 shares among themselves, together with the money received from the sale, thus giving each stock owner 51 shares in the cow and \$500 each—for being smart.

But one of the ten began to worry. "Look here," he said, "every fellow who bought shares in the cow will expect a gallon of milk tonight, and the cow gives only ten gallons; the milk will be divided into one thousand shares and ten parts will give these new share holders less than a spoonful each. Share values will drop to nothing, so, to be better off, I will sell my shares." But he was better off than we can.

Then they went out on the street to find investors, and soon each had sold the 50 shares awarded to him for being smart, thus obtaining another \$500 to divide among them. A pretty time this night was drawing on and again one of the ten began to worry.

"There will be a rat on milking time," said he. "Let us hasten out and secure from each shareholder a proxy, which is a joker authorizing you to cast as you think best the vote which the share refers, and then we will do some voting."

At twilight the ten met again, having in their hands the 1000 proxy papers to represent the absent shareholders. Now, the ten, being able to vote in their own right, being still in possession of the original shares. Said one who did the talking: "We must reorganize. This company now has 1000 shares, and eight vice-presidents. That gives each of us a job and since there are ten of us and the cow gives only ten gallons it is moved and seconded that each of us receive as a salary one gallon of milk per day. In all favor say 'Aye.' The motion carried without a dissenting vote. And then they milked the cow.

The regular meeting of the Gleichen F.W.U.A. was held at the home of Mr. E. Johnson with 19 members and 2 visitors present. After the business meeting a lawn party was held when games were played. Contests were won by Mrs. F. Stames, Mrs. E. J. Burns and Duane McMillan. The next meeting will be held at Mrs. A. Dunsen's, Sept. 2nd.

Town & District

Mrs. Doris Collins and daughter spent a few days holidays with friends at Penhold during the past week.

If you spend your money where you get it, you will be able to get it where you spend it.

Mr. and Mrs. Stuart Hampton left last Thursday afternoon on an extended motor trip into the western United States. It will be sometime before they return to town. For the past ten years Mr. Hampton has been manager of the Gleichen Stores here and while he has not been enjoying very good health and as a consequence has given up his position in the store.

Recently we received a photograph from the R.C.A.F. of Sgt. Bill P. MacCallum as he mounted an airplane. A note accompanying the picture announced that he has been transferred to No. 30 Air. Material Base at Langar, England and was boarding a R.C.A.F. four-engine North Star aircraft at Dorval Airport near Montreal, Ill. wife, Mrs. Dorothy MacCallum, and three children, Randy, Eric and Mary, did not accompany him overseas but are residing at Shellbrook, Sask. His parents, Mr. and Mrs. A. P. MacCallum reside in Gleichen.

The Legion hall is being renovated these days. The Legion boys are leaving down the old ceiling and are putting in its place a new ceiling that will materially improve the appearance of their hall. A lot of other improvements are to be made in due time.

The regular dance of the Meadowbrook Hall board last Friday was very well attended and a good time was had by all.

The base for the new skating rink has been made. Saturday Can Evans using his bull dozer leveled off the ground and where necessary filled in the low spots. As soon as the final levelling is finished the laying of cement will start. Already the necessary gravel and sand is on the ground ready for use. During the last few days the young boys of the town have been busy salvaging boards from the old rink which will be used to fence in the new rink. So now with a little public spirit and work the new rink will be ready when the cold weather sets in.

The man who makes money in a community has a duty to perform to that community. It may be that he has made his money by his superior business ability, and that he would have done as well elsewhere. That does not alter the case. If his gifts are great his responsibility is equally as great. No man was placed on earth for the sole purpose of making money, and the man who has this in his ideal had better never have been born. It is not an act of charity, but the performance of a simple duty for the man who makes money is to pass a little of it on for the benefit of the community, even though he never expects to see a dollar of his contribution back.

Auto drivers late for appointments trying to make up time and distance are on auto safely parked on recently, cause nearly half of the accidents on highways and much of the

head-on collisions on city streets. It seems that even the most efficient drivers take unreasonable risks with traffic in an effort to arrive at a given destination at a specified time. The toll of accidents, many of them resulting in fatalities, would decrease if motorists started for appointments with time to spare, or reconciled themselves to being late.

Mrs. N. Sherbak has returned home after spending the past month visiting her son and family in Jativa.

The annual convention of the Indian Women's Homemakers Clubs was held in the Crowfoot hall on the Blackfoot reserve for several days. Last week there were more than eighty delegates present from the three prairie provinces. At this convention there was a large exhibition of Indian handicraft which included everything from making fur jackets to embroidery. Some of the delegates came from as far as Oxford House, Man., and Prince Albert, Sask. Five Indian tribes were represented.

The club and convention is sponsored by the department of Indian Affairs.

PICNICS

Here is a parody to the song "Let's have a party, let's all have fun," it goes like this: "Let's have a picnic, we'll all have fun, you bring the wieners, I'll bring the guns, we'll light a bonfire and all sit around and we'll wait the wieners until they're golden brown." The parody brings to mind the subject of picnics. Everyone is picnicing these days, for summer weather is the time to enjoy the wonderful outdoors.

We all have our own ideas about what foods we like to take on picnics, but here are some picnic ideas which certainly will be useful to everyone. The first idea mentioned is the role of aluminum foil—this is not intended as a pun. This is one way of using it—there is nothing like vegetables cooked out doors in a bonfire, but here are some picnic ideas. First, get too hot or smoky each person a picnic, instead of being given a nicely baked potato or a brown ear of corn, receives a charred offering which is not palatable. Of course it is taken chanced or not, because on a picnic, no one complains. Now aluminum foil enters into the picture, if the vegetables that are to be roasted are wrapped in aluminum foil and placed in the bonfire, they will cook just beautifully. The foil will not burn and the vegetables are protected from rain and wind.

Thinking of flames and smoke have you ever tried to toast a Weiner on a stick which was too short and you kept burning your hand. Every time you jerked your hand back, invariably the Weiner fell off into the fire and you had a difficult time trying to rescue it. The solution is a popcorn popper, the one with the long handle. It is the ideal utensil for roasting wieners.

If several wieners are put in the popper, held over the fire and

shaken occasionally so that all sides are evenly roasted a perfectly cooked Weiner will be the result and there will be no burnt hands and no lost wieners. If milk is bought in square or round quart containers, it is wise to save the containers to bring on picnics. They should be washed thoroughly and stored in a dry place so that they will be ready for use at any time. A piece of aluminum foil or heavy paper can be tied over the top to act as a lid.

Poverty has its advantages and advantages its uses. If you are poor you can wear out your old clothes. You are excused from calls, you are not troubled with many visitors, horses do not bore you, spatters do not stain your tables, brass bands do not surround you. No one thinks of presenting you with a testimonial. No store keeper irritates you by asking you "Is there anything I can do for you?" Begging letters do not bother you. Flatterers do not flatter you. You are saved many a debt and many a deception. And lastly, if you have a true friend in the world, you are sure to know it in a short space of time.

Canada's Population Increasing

OTTAWA. — Canada's population total at 14,092,000 at March 1 this year, an increase of 89,000 over the previous three months and a jump of 376,000 compared with March 1 last year, the bureau of statistics reported.

The December-March quarter usually shows a smaller gain than other quarters. The 68,000 figure compares with increases of 80,000 from Sept. 1 to Dec. 1 last year, 104,000 from June 1 to Sept. 1, and 114,000 from March 1 to June 1.

The latest estimate indicates a gain of 683,000 or 4.9 per cent. in the 21 months from June 1, 1951, the date of the last census which recorded a population of 14,009,000.

STOCKS OF CREAMERY BUTTER IN NINE CITIES IN CANADA

Stocks of creamery butter in nine cities of Canada on May 21 totalled 21,260,000 pounds as compared with 13,355,000 at the same time a year ago. Holdings were as follows by city, totals for the same date last year given in brackets—in thousands: Quebec, 892 (750) pounds; Montreal, 8,854 (6,388); Toronto, 5,908 (2,305); Winnipeg, 3,184 (1,217); Regina, 608 (119); Saskatoon, 351 (150); Edmonton, 554 (328); Calgary, 210 (109); Vancouver, 760 (422).

Funny and Otherwise

The long-mooted rooster of Westland, Germany, North Sea island resort were bannished to the mainland recently for the duration of the vacation season. Town officials said the roosters awake guests too early and would be executed unless removed.

"Where's your ticket?" demanded the collector. The sleepy traveller opened an eye, looked at the collector, and closed it again.

"Now, then, where is it? Haven't you got one?"

"The traveller opened his other eye. Then he shook his head. 'All right,'" said the collector. "You'll have to pay. Five and six, please!"

"The sleeper took no notice. 'Don't you hear me?' cried the collector. 'Five-and-six!'"

For a moment the weary eyes opened again. Then a slight dawning of intelligence broke upon the traveller's countenance, and he answered: "Eleven!"

A coffee salesman was travelling through Alabama, and as he walked he chatted with a lay-folkman him falling on a seat at the town of Columbus.

"Ever drink coffee?" he inquired. "No," the lay-folkman replied. "I'm stirring up interest in his line."

The man admitted he drank a cup of coffee every day. "Fifty cents you pay? Doesn't it keep you awake?" inquired the salesman.

"Well, it helps," answered the lay one.

A man had been trying to write a telegram with a pen nib supplied by the post office. After two or three ineffectual starts he turned to the girl behind the counter and said: "Is this by any chance the pen used by King John at the signing of Magna Carta?"

The girl replied: "Inquiries on the right, sir."

"So you suffer from indigestion?" asked the helpful friend. "Well, what could be better than drinking a pint of warm water after every meal?"

"Indigestion?"

Tommy was tired of the arithmetic lesson. He was waiting for the teacher to correct his sum so that he could go.

"Your last answer is wrong," the teacher said. "You must stay behind."

Tommy glanced at the clock. "How much am I out, sir?" he asked.

"Ten cents," was the reply. Tommy put his hand in his pocket and produced the money.

"I'm in a hurry, sir," he said. "Do you mind if I pay the difference?"

"I'm only working two days a week, now." "Why, I thought you had a five-day-a-week job?" "I have, but the boss is out four days a week!"

Mrs. Long: "Do you feel better this week, Mrs. Short?" Mrs. Short: "I do, an' then, again I don't."

"That's bad, for I don't know whether to say 'I'm sorry or glad.'"

"I trust, Miss Tappitt," said the kindly employer to his stenographer, "that you have something in reserve for a rainy day."

"Yes, sir," answered the young woman. "I'm going to marry a man named Blackstock."

"Ma," said the little girl who was reading a geography book, "where is the state of matrimony?"

"That," said the mother, "is one of the united states."

Sport Programs Keep Boys Straight

MONTREAL.—Montreal police have used sports and other activities effectively to deal with juvenile delinquency.

Canada's largest city has one of the best records on the continent for keeping youngsters out of serious trouble.

Largely responsible are sports clubs founded 17 years ago by Assistant Inspector Onila Pelletier of the Montreal Police Department.

Struck by the number of youngsters getting into trouble, he founded the clubs to give them an outlet for pent-up energies. He recruited his first members on street corners.

Inspector Pelletier looks at the situation this way: "Life is a game. The boy who plays his sport right is likely to play his life right. Our job is to help to show the way to 10 to 18 year olds."

DRASTIC DROP
Agriculture Minister Nolin reports in Shaganavon, Saskatchewan, cattle production has dropped a drastic 1,250,000 head a year since the end of the Second World War. Today is yesterday's pupil.

THE GLEICHEN CALL, GLEICHEN, ALBERTA

:- APPETIZING RECIPES :-

STRAWBERRY CHEESECAKE
For the Graham cracker crust, combine 1 1/4 cups Graham cracker crumbs (about 18 crackers), 2 tbs. sugar, 1/4 cup butter and 1/4 cup softened butter. Blend thoroughly. Press crumbs firmly on bottom and sides of a 9-inch cake dish. Bake in moderately hot oven (375 deg. F.) 6 minutes or till lightly browned. Cool.

For the filling you will need: One package lemon pie filling, 1/4 cup sugar, 1/4 tbs. salt, 1 1/4 cups water, 1 egg, beaten; one 8-oz. package cream cheese, 1 tin plain gelatin, 2 tbs. cold water, 1/4 cup boiling water, 1 cup strawberry preserves.

Blend pie filling, sugar and salt in a saucepan. Gradually add 1 1/4 cups water and the egg, mixing thoroughly. Cook over low heat until thickened, stirring constantly. Soften cream cheese; gradually stir in lemon mixture. Beat with a rotary egg beater until smooth.

Spread pie filling, sugar and salt in a saucepan. Gradually add 1 1/4 cups water and the egg, mixing thoroughly. Cook over low heat until thickened, stirring constantly. Soften cream cheese; gradually stir in lemon mixture. Beat with a rotary egg beater until smooth.

Spread pie filling, sugar and salt in a saucepan. Gradually add 1 1/4 cups water and the egg, mixing thoroughly. Cook over low heat until thickened, stirring constantly. Soften cream cheese; gradually stir in lemon mixture. Beat with a rotary egg beater until smooth.

Spread pie filling, sugar and salt in a saucepan. Gradually add 1 1/4 cups water and the egg, mixing thoroughly. Cook over low heat until thickened, stirring constantly. Soften cream cheese; gradually stir in lemon mixture. Beat with a rotary egg beater until smooth.

Spread pie filling, sugar and salt in a saucepan. Gradually add 1 1/4 cups water and the egg, mixing thoroughly. Cook over low heat until thickened, stirring constantly. Soften cream cheese; gradually stir in lemon mixture. Beat with a rotary egg beater until smooth.

Spread pie filling, sugar and salt in a saucepan. Gradually add 1 1/4 cups water and the egg, mixing thoroughly. Cook over low heat until thickened, stirring constantly. Soften cream cheese; gradually stir in lemon mixture. Beat with a rotary egg beater until smooth.

Spread pie filling, sugar and salt in a saucepan. Gradually add 1 1/4 cups water and the egg, mixing thoroughly. Cook over low heat until thickened, stirring constantly. Soften cream cheese; gradually stir in lemon mixture. Beat with a rotary egg beater until smooth.

Spread pie filling, sugar and salt in a saucepan. Gradually add 1 1/4 cups water and the egg, mixing thoroughly. Cook over low heat until thickened, stirring constantly. Soften cream cheese; gradually stir in lemon mixture. Beat with a rotary egg beater until smooth.

Timber Wolf Population In Sask. Reduced

PRINCE ALBERT.—The days of the wily timber wolf in northern Saskatchewan are numbered.

According to Harold Reed, northern game supervisor here, control programs carried out over the past two winters have sharply reduced the numbers of this ravenous predator, which destroys up to 60,000 caribou, deer, elk and moose annually in Saskatchewan.

The past winter's program rang the death knell for 239 adult and estimated 400 young, unregistered wolves, compared to about 400 adult and unborn wolves destroyed last year.

Mr. Reed said he kills this winter occurred in a "buffer zone" reaching from the 98th parallel in Saskatchewan to the 61st parallel in the Northwest Territories, an area of roughly 40,000 square miles. Here, control measures were undertaken jointly by provincial game branch and federal Department of Resources and Development.

Inside the zone, 51 bait sets destroyed 159 adult wolves (21 were found at one set). Further south, 78 sets accounted for only 70. Put out last February, the baits consisted of caribou meat, impregnated with strychnine. They were located on isolated trails to avoid poisoning forest-dwelling fur bearers and were destroyed prior to the spring ice break.

Wolf carcasses were also disposed of, except where used as bait. Mr. Reed reported that at one point, just inside the Territories boundary, an unusually large pack of wolves had cleaned up a bait set, plus a freshly killed caribou, and were starting to eat their less fortunate kin. "All we could do was saturate these carcasses with strychnine in the hopes of getting more wolves," he said.

The past winter's program pointed up some interesting facts. 1. Many Saskatchewan timber wolves come originally from the Territories, usually with migrating caribou. 2. Most effective bait sets were those along caribou routes. 3. A Saskatchewan-Territories buffer zone is the best way to keep timber wolves out of Saskatchewan.

Mr. Reed believed northern wolf control would continue as long as the definite need for it exists. He expected control measures would bring about a "sharp increase" in northern big game, just as deer along Saskatchewan's frontier from region have multiplied as a result of 1000 coyote control.

BIG BUILDING
REGINA.—Regina's new post office building, expected to take 24 months in construction, will cost an estimated \$3,500,000. It will be the largest office building unit here with a possible exception of the Saskatchewan Legislative Building.

The "song" of the clouds is produced by two drum-like membranes on its abdomen.

OUR COMPLETE SHORT STORY—

ACCIDENTAL DEATH

The Bomb Explosion Gave Snider One — For Keeps.

By KERRY WOOD

"I'M KILLING you now, Hartley!"

whispered Snider, and he pressed

the trigger.

Hartley walked slowly down the

mountainside. Ben Hartley, of Hart-

ley and Snider, the city's best bro-

keage team. School chums, they'd

joined forces on leaving college.

"I'm two dollars richer at you,"

Hartley chuckled as they counted

their total initial assets.

"That makes you the senior part-

ner," Snider grinned. "We'll make

it: Hartley and Snider."

"It had been a struggle at first, but

Hartley was a go-getter with people

and Snider was careful. Hartley

called his lean partner The Brain.

While Snider jabbed Ben's paunch and

hailed him as The Front.

"We're getting along, but I'm

against joining this country club,

protested Snider. "We can't afford it."

"Come on, miser," Hartley boomed.

"It's got prestige and people in gobs."

They met Marion at the club, be-

coming friendly rivals at once. Two

hundred weeks later, she made her

choice. Snider shook Ben's hand in

congratulation and Marion gave him

a kiss. "Hartley said, 'You'll be

the rich uncle.'"

"Sure," nodded Snider, "and you

may not be too long in your quit

plunging."

But Ben's plunging turned out well

and they were on Main street. Cur-

ciously, it was Hartley who became

cautious on a deal that Snider fa-

vored.

"It's the big chance," Snider de-

clared.

"Too risky," Ben vetoed.

Snider privately cursed Ben's sub-

sane streak and, convinced of a gold-

mine opportunity, plunged with his own

resources. He "borrowed" from the

firm to recoup, losing that money

too. In panic, he confessed to Ben.

"Well, Hartley was suddenly

grave. "It's not playing fair—Ah,

forget it! I'll write you a cheque on

my own account and we'll see it

through together."

The prudent partner managed a smile

of gratitude, but that's when he

began to hate Hartley. His chance

came in a letter from Hartley, a

mutual friend who'd become, of all

things, a friend again. Tubby Jen-

LEARN TO SWIM

The second of a series of four articles by Bevan Lawson, Saskatchewan Director of Swimming and Water Safety for the United States.

At the Beach

The first time you get to a beach this summer be sure that the shallow water part is safe, and do not go unless there is an older person with you who can help you, and stay close to shore in waist-deep water. The first thing to do is to get into the water and get well over your head right under. Then try the breathing several times in a row. Blow bubbles slowly then turn your head and grab a quick breath, turn your face back in and blow more bubbles.

The Sleighride

Face shore in waist-deep water, spread your feet, one in front of the other, crouch down until your chin is in the water. Now pull both arms straight out in front of you with the palms of your hands flat on the water. What do you know—your feet float! Push them down under water, and soon they will float to the surface again. Well now they are crouched down and hands out in front, hold your breath, put your face into the water, lean forward and push off the bottom, and you will slide under. Look at the picture. You should do this Sleighride over and over again.

How to Stand Up

After a Sleighride you'll want to stand up—its easy—just (1) pull your knees in to your chest (2) put your arms down on the water—like in the picture. You should practice this in waist-deep water with someone in the water with you. But don't go to touch bottom with your hands and don't lift your head 'till your feet are on the bottom.

Jelly Fish Float

This is easy to do. In waist-deep water take a deep breath, bend down and touch your toes. Hold this position and you will float with your back to the water. Swimmers sometimes get cramps in their legs and the experts use the Jelly Fish Float.

position so their hands are free to massage the cramped muscles. It is also used when swimmers wish to get out of their clothing in an emergency.

Send Crawling

Here you can get into a simple leg kick. You must learn to use your strong leg muscles before you do anything with your arms. So here we go Band Crawling. Do a Sleigh Ride, then push yourself along by digging your toes into the sand—left foot then right foot—dig—push. Soon you won't touch the bottom with your feet at all. Your legs kicking up and down will move you forward towards shore. Keep that head in the water! Keep your arms straight out in front.

Dog Paddle

When you have your leg kick going pretty well, you can start to imitate a dog. Do a Sleigh Ride, then pull your left arm straight down—then your right. Keep your hands going as though you were digging in the sand. Reach well forward with each hand. If you can, watch a dog's front paws get the idea. Do it over too fast, take it easy. Keep trying. You'll get the arms and legs working. Look at the picture. You're turning your head to grab a breath. Remember to blow air out under your head is heavy and keeps pushing you under. Just remember it takes time to learn to do anything. Next week we will tell you how to do the Breaststroke and swimming on your back. Until then, keep practicing lesson one and lesson two. Whatever you do, don't go into any water unless you have someone with you who can help you in case of trouble. It's shallow water for you for a long time yet.

Buffalo Return To Old Haunts

Waterton Lakes National Park has an additional tourist attraction this year. After an absence of more than 50 years, buffalo may again be seen in this wildlife sanctuary. In April, six head of buffalo were moved from Elk Island National Park, west of Edmonton, to Waterton Lakes National Park, a special enclosure. The first calf of this new herd was born a few days after the animals' arrival.

Eat Right—Live Right—Feel Right

TOBACCO ELIMINATOR
A scientific remedy for cigarette addiction. It is a "satisfying" or "money-back" guarantee. No "junk" or "drugs." Nothing to lose. Write for free booklet. **KING PHARMACEUTICAL CO. LTD.** Vancouver, B.C., or Box 67, London, Ont.

ANSWERS TO QUICK QUIZ

ANSWERS: 5. Ontario, with Saskatchewan second. 2. Quebec. 3. Y. In the early years of this century, when Ottawa's aggressive immigration policy brought in a million Americans. 4. Quebec. 2. About a million and a quarter; primary textiles is the largest employer.

(Material supplied by the editors of the Quick Canadian Facts, the handbook of facts about Canada.)

Actions speak louder than words.

VERSATILE GROUP—Canadian National Expressmen in Montreal are a pretty versatile group and recently demonstrated their ability in the care and feeding of 375 pounds of Manitoba wildlife. The shipment—four timber wolf pups, three young badgers and six porcupines—arrived by rail en route to the Wildlife Zoo in London, Eng. They were supervised by Winnipeg's Assiniboine Park Zoo, following a telephone call from Winnipeg officials offering to trade some yaks for the timber wolves. Help Sam Jordan, of the express department, strikes up a friendship with one of the furry wolf pups.

Sales Of Refined Beet Cane Sugars

Canadian sales of refined beet and cane sugars higher in April and May, up from 1,950,000 in the same month last year, while cumulative sales in the first four months of the year were slightly lower at 366,037,000 pounds as against 366,011,000 in the corresponding period of 1932. Production was up in both periods: 72,944,000 from 60,266,000 pounds in the month, and to 252,928,000 from 238,623,000 in the four months. Total April supply was 234,512,000 pounds as against 274,068,000 a year earlier, while the four-month supply totalled 980,260,000 pounds as against 969,609,000. Month-end stocks were up to 237,554,000 from 122,588,000.

Mellings and sales of raw cane sugar higher in April and May. January-April period, but receipts and month-end stocks were lower. Sales and mellings rose to 17,000,000 from 16,042,000 pounds in the month, and to 265,535,000 from 242,881,000 in the four months. Receipts were down to 10,651,000 from 11,857,000 pounds in April, and to 20,777,000 from 21,730,000 in the four months. Total April supply was 173,814,000 pounds in April-April against 177,631,000 in the same month last year, while in January-April supply totalled 359,780,000 pounds as against 356,430,000. Month-end stocks were down to 255,000 pounds from 113,549,000 a year earlier.

Quick Canadian Quiz

At any time in history has the movement of population between Canada and the United States been in our favour?

2. How many Canadians are directly employed in manufacturing, and which industry employs the most?

3. Which province has the largest maple syrup and maple sugar production?

4. Which province has the largest pulp and paper production?

5. Which province has the largest farm cash income?

Answers in Another Column

GARDENING PENALTY

Many happy hours spent in the garden usually result in a crop of weeds and vermin, as well as insects. Even small skin abrasions can turn into serious wounds unless they are attended promptly. No matter how small a wound should be cleaned and a dressing applied to keep out dirt and germs. Ready-made gauze and adhesive bandages keep out dirt. Don't require elaborate bandaging. A first-aid kit should be kept handy in every home, cottage, office or car.

AT A CORNER ON MAIN STREET

A community springs up and, as it grows, a branch bank opens its doors.

This pattern, basic in Canada's development, has been repeated again and again in pioneer areas, villages, towns and cities. Through local branches, the chartered banks bring to small communities, as well as large, the same broad range of banking service.

There are now 3,900 branches of Canada's chartered banks serving the banking needs of Canadians, 700 opened in the past ten years.

**THE BANKS SERVING
YOUR COMMUNITY**

HERE AND THERE

Quite a number of Gleichen baseball fans attended the baseball game in Strathmore Sunday afternoon. Carlsland defeated Strathmore.

Mr. and Mrs. Geo. McBean have returned from a holiday spent at the coast. While there they called on Harry Scott, who for many years farmed near Stobart. They report that Mr. Scott is enjoying the best of health despite his advanced age.

Duncan Campbell of Delta, spent the weekend in town visiting his niece Mrs. G. W. Evans and other relatives.

Mrs. E. Menard accompanied by granddaughter Karen has returned from a visit to her son Raymond and family at Grand Prairie, Alta. Mrs. Menard says they are having plenty of rain up there.

Ted Krause left last week for Keg river, Alberta, a place some hundreds of miles north of Edmonton. He took along a combine to help harvest the crops in that area. He will be away for several months.

R. C. Clifford has returned from his holidays spent at the coast where he visited his wife and family. While there he met his sister whom he had not seen for forty years. His brother-in-law, Tommy Fisher is not enjoying very good health. Tommy will

be remembered only by the real old timers of the district. He was a great actor and several times a year put on shows in the Gleichen hall. He always had great crowds on hand to see his shows.

Mr. and Mrs. Dick Allen of Midnapore spent several hours in town Saturday afternoon and while here met some of their old friends. They were returning from a visit to relatives in Saskatchewan and were en route home when they passed through town. They came to Gleichen some 48 years ago and left here in the early twenties.

Mr. and Mrs. Brewitt of Michieft spent several days in town during the past week visiting at the home of Mr. and Mrs. P. Kelly. The two ladies are sisters.

At the present time many Gleichen housewives are busy canning the products of their gardens. Many a cellar is being rapidly stocked up for winter.

Leo M. Craine, a guest at Eventide Home for the past three years died last week at the age of 72 years. He was born in River De Chute, N.B., and came to Gleichen from Melfort, Saskatchewan. By trade he was a C.N.R. locomotive engineer and retired in 1948. The funeral took place Friday afternoon at 1:30 p.m. with Major A. F. Parkinson of the Salvation Army officiating, and interment was in Eventide cemetery.

Fall Rye—A Good Winter Crop
No less than 918,000 acres of Fall rye will be harvested in the Prairie Provinces in 1953; a substantial increase of 38 per cent from the 670,000 acres harvested in 1952. Present prospects are that Western Canada will harvest one of the largest rye crops on record this year.

Increased Interest.—Why Fall rye? Well, fall rye is the harvest of all winter cereals and, as Mr. J. E. Andrews, Cerealist, Lethbridge Experimental Station has recently pointed out, rye is one of the most versatile of cereal crops. It grows well on good soils, and does relatively better than other grain crops on soils of poor fertility, particularly on dry, light, sandy soils. Except in the case of ergot, rye is not subject to the common disease "hat attack" other grain crops.

Date and Rate of Seeding.—For best results, fall rye should be sown between August 15 and September 15. Later seedings usually result in decreased yields. For dry districts the recommended rate of seeding is from 5 to 1 bushel per acre. However, a slightly heavier rate should be used where more favorable soil moisture conditions occur.

Varieties.—Some varieties of fall rye are more suitable than others for certain crop districts. Dakold, a variety noted for its winter hardiness and high yield, is recommended for use in each of the three prairie provinces for 1953. However, a new variety of fall rye called Antelope has just been released by the University of Saskatchewan. Antelope is considered better than Dakold in winter survival, excels it in yield, and has a larger and more productive kernel than Dakold. A limited quantity of seed of Antelope will be available for general distribution this fall. Farmers wishing to obtain seed of this new fall rye variety should place their orders at once with the local elevator agent or one of the Line Elevator Companies listed above. Do it today! For more detailed information on Antelope write to Dr. J. B. Harrington, University of Saskatchewan, Saskatoon.

More People Buy

CHEVROLET

than any other car!

Make no mistake about it CHEVROLET is the LEADER!

1st in Sales! 1st in Value! 1st in Demand!

Only one car can be the leader! Only one car can be the favorite! Only one car can be the most-sought, most-bought car in Canada! That car, year-in, year-out, is Chevrolet. In the first six months of 1953, according to the latest official registration figures, Canadians bought 41,660 Chevrolets. This is 12,401 more cars than were sold by its nearest competitor — dramatic proof of Canada's continuing preference for Chevrolets!

The tremendous popularity of Chevrolet means lower production costs. It means big savings that are passed on to you! And because Chevrolet value lasts, there are extra dollars for you when you trade in your Chevrolet, for Chevrolet consistently shows highest trade-in values of any car in Canada! Final proof of good value is the loyalty of Chevrolet drivers, a loyalty that grows stronger with every new year — with every great Chevrolet we build.

Although other cars are available, thousands of Canadians are waiting patiently to get their Chevrolet. No other car will do! Surely this is proof of Chevrolet's superiority . . . and its unchallenged place in the hearts of Canadian motorists.

**QUESTIONS
and
ANSWERS
about
Cancer**

QUESTION: Is it true that cancer eats the inside of the body?

ANSWER: Cancer does not "eat" the tissues. It causes death by surrounding tissues by interfering with their function and by blocking them of their blood and lymph supply.
